## OFFICE ACTION

### *Allowable Subject Matter*

Claims 1-20 are allowed. Following is the statement reason for allowance:

The closest prior art, US 4,883,772 to *Cleeves et al* discloses a process for making a self-aligned silicide shunt, which is located outside the emitter of a bipolar transistor [Fig. 2f and col. 5]. US 4,916,083 to *Monkowski et al* discloses a vertical bipolar device having a surface portion of the exposed intrinsic base being removed to recess the would-be extrinsic base [Fig. 2E and cols. 8-9]. None of the cited arts teaches or suggests, *inter alia*, a portion of a shielding layer being removed to form an opening with the shielding layer to expose a portion of a third doping region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
